

Commissioner Susan Mender

Susan Mender is a Frederick native who has owned and operated Mender & Associates, a title abstracting business, since 1984. Although her business background is in real estate, she has throughout her life been interested in family issues and women's issues in particular. Being the oldest of seven children whose mother was the sole support for many years, she is intimate with the travails that can beset families and believes the Frederick County Commission For Women is a great venue to help address the pressing needs of women and their families.

In addition, she had served on the Board of Zoning Appeals for the City of Frederick and is a member of the Frederick Women's Civic Club where she has served in the past on a Mardi Gras Committee. Ms. Mender received a B. A. in English Literature from Goucher College and has taken several paralegal courses at Georgetown University.
